PRESS RELEASE

FOR IMMEDIATE RELEASE

June 20, 2018

ROADWAY PATCHING TO BEGIN ON VINE AVENUE (OLD 218)

On Thursday, June 21st, Washington County will begin a maintenance patching project on the two miles of Vine Avenue (Old 218) north of Crawfordsville. This work is being done by the North Liberty contractor LL Pelling Co and will make repairs to the deteriorated surface of Vine Avenue. This project will improve the ride and extend the life of the pavement and is being done now as a short term repair until enough money is saved for a project that will provide a long term pavement.

During the time the contractor is working, traffic will be restricted to one lane at a time and travel through the work zone will be aided with the use of flaggers and pilot cars. The work is expected to take about one week, weather permitting. Drivers are encouraged to use caution in the construction zone and pay attention to roadway signage for directions through the area. Questions about the project can be directed to the County Engineer's Office at (319) 653-7731.
