PRESS RELEASE

FOR IMMEDIATE RELEASE

9/6/2019

ROAD PATCHING TO BEGIN ON COUNTY ROAD 220th Street (G36)

On Monday, September 9, 2019 a roadway patching project will begin on 220th Street (G36). This project will require the closure of 220th Street from Hwy 1 & 92 east to the 12th Street (Riverside Road) intersection. The project is expected to last 1-2 weeks while Washington County road crews complete the work on this project.

While 220th Street is under construction, the road will be closed to thru traffic. Traffic will be detoured around the project using 12th Street and Hwy 92 thru Washington and north to the Hwy 1/92/G36 intersection. The public is reminded to use the posted detour and use caution while traveling the detour route. In addition, drivers should allow additional time to reach their destination as a result of traveling through Washington. The work for this project will involve concrete patching of the road surface. Questions about this project may be directed to the Washington County Engineer's Office at (319) 653-7731.
